## LET LIGHT BE LIKE ART...

Our focus this year has been on creating designs that will widen our horizon and push our boundaries. Over the past period of time we have had time to reflect and challenge ourselves to create new designs, that will amaze you and hopefully find a place in your home.

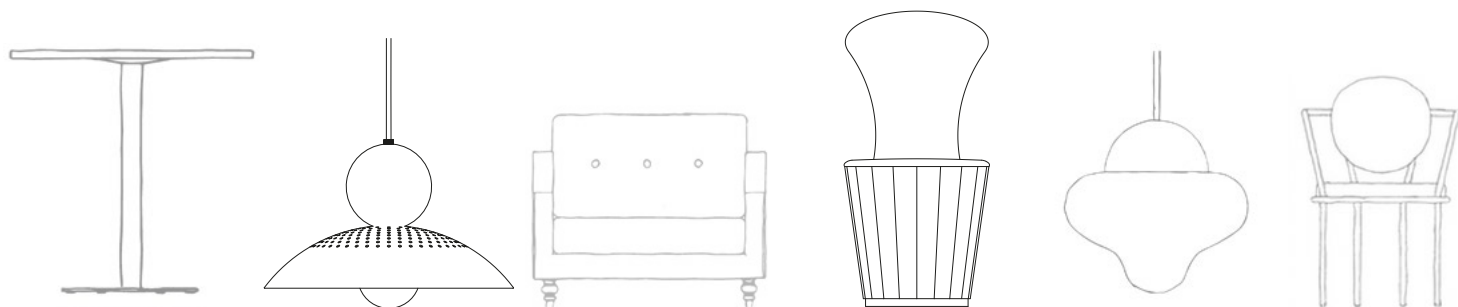

It's no secret that our designs are born in the borderland between decoration and functionality with an attention seeking personality. This is also the case this time. We are working towards giving our lamps and furniture a sculptural form that may bend the rules for traditional light design, but we are so fascinated by abilities the materials like stone, glass and metals have to offer - we play with balance, reflections and light as part of our everyday life as well as an installation of light art in your home.

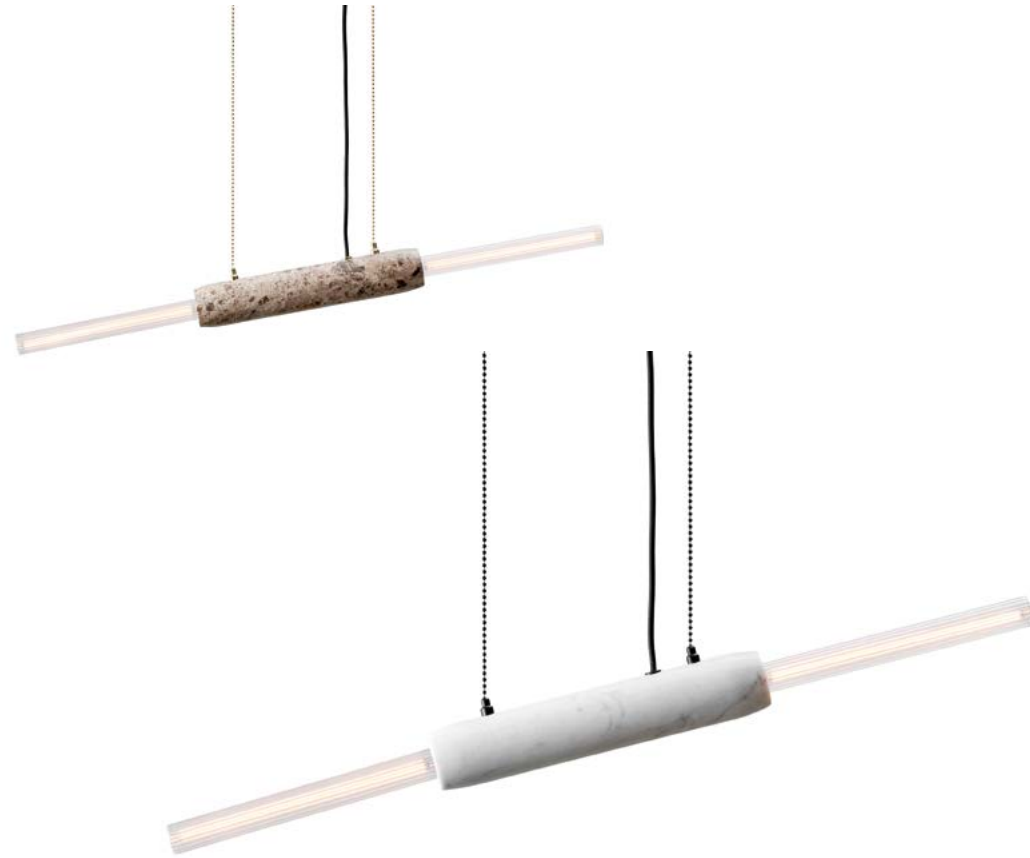

As always, we salute the entrepreneurial spirit and the concept of following the desire to create.

Welcome to Design by Us

All the best

Design by Us &  
Rasmus Larsson  
Founder of Design by Us

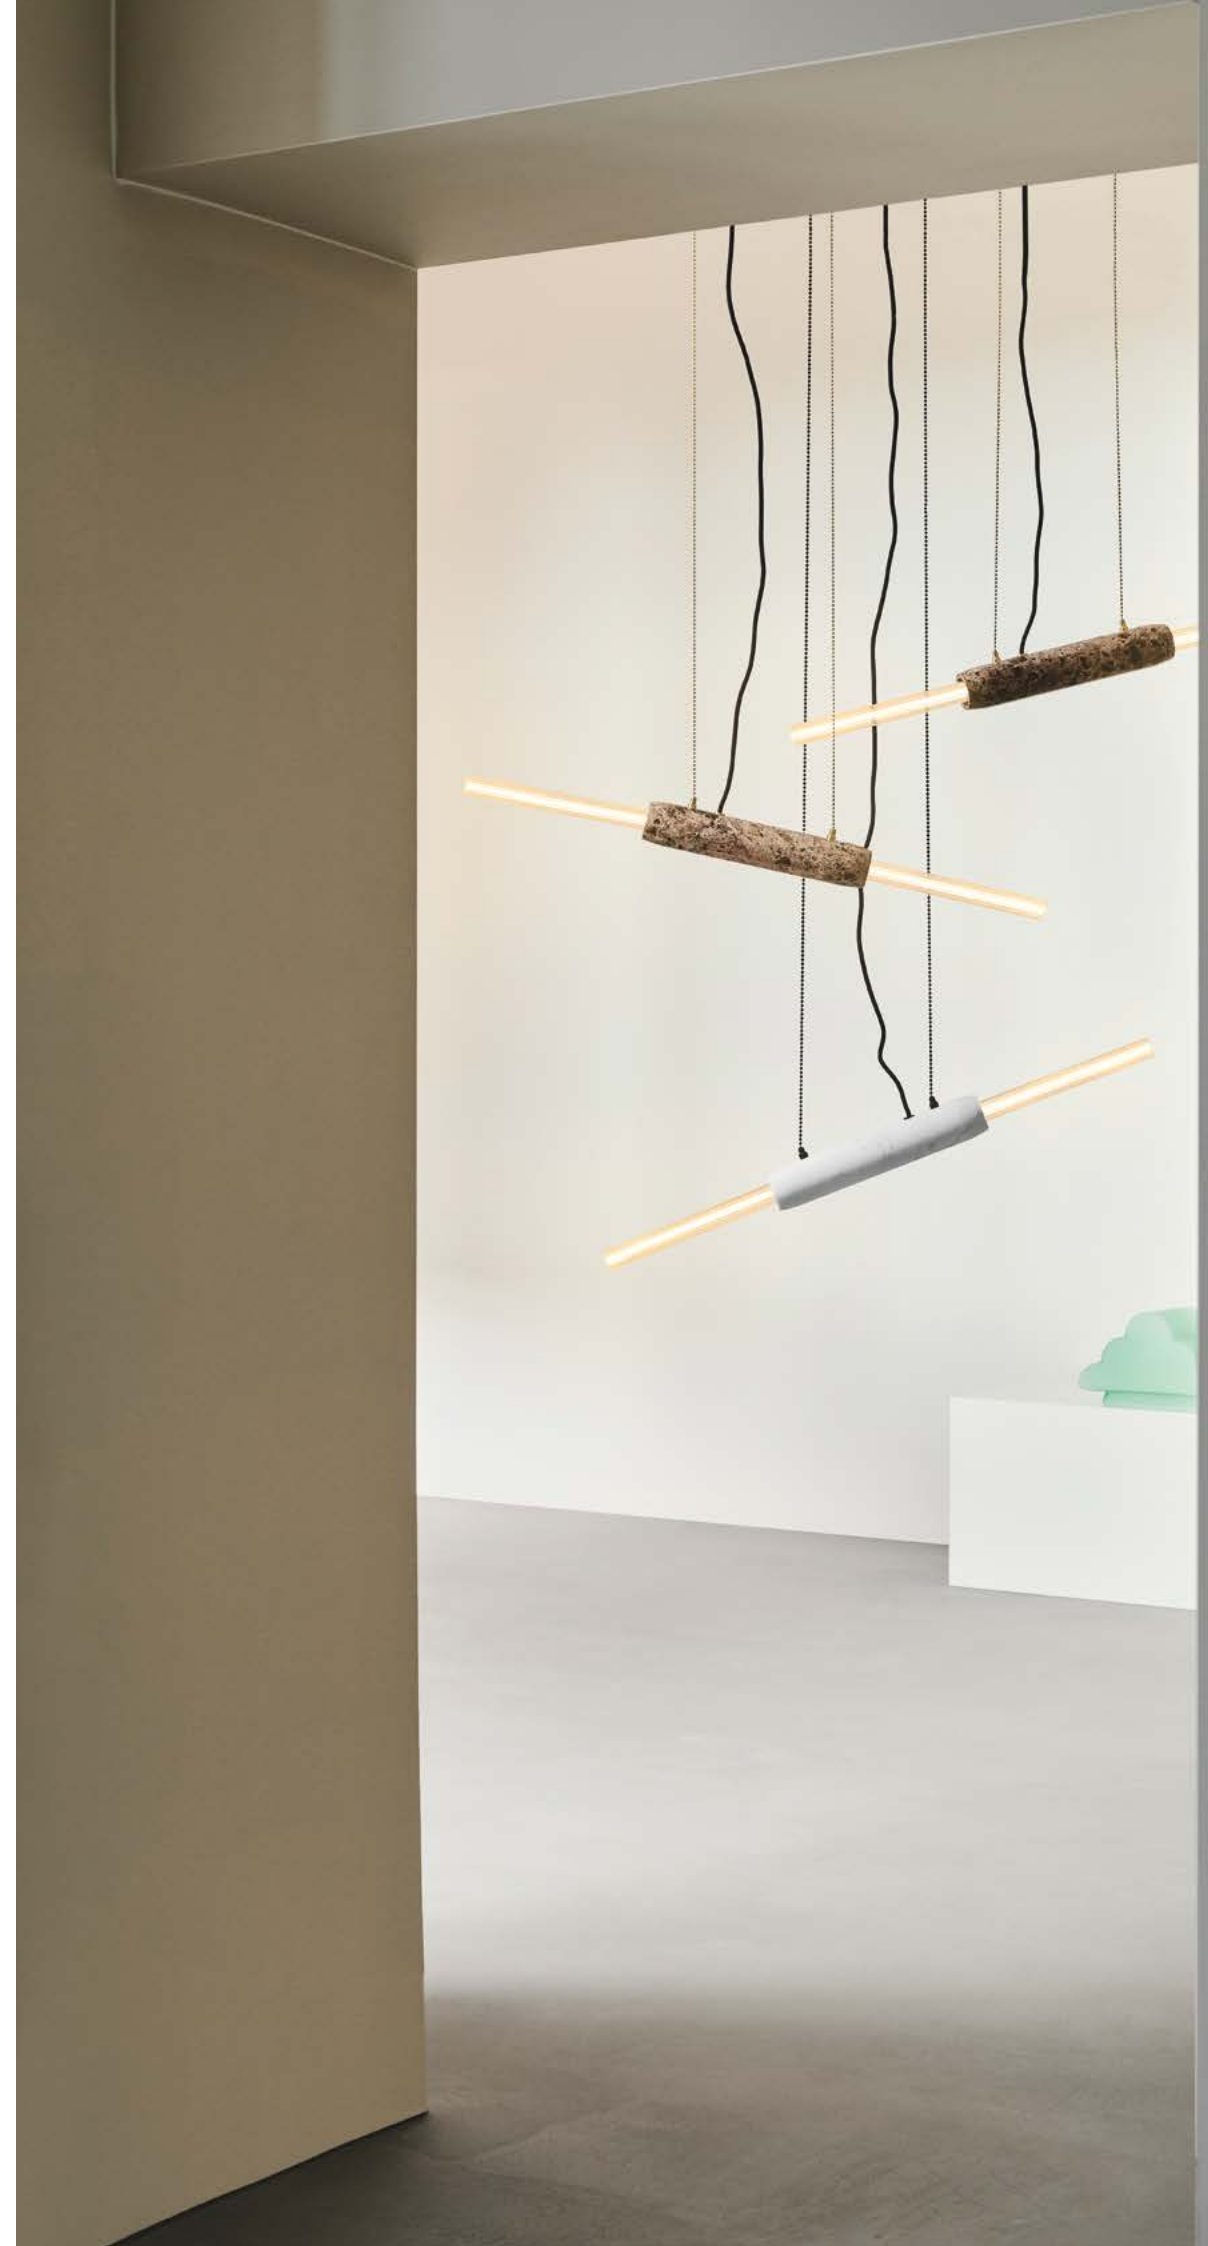

## LIMBO

### The art of balancing

We call it Limbo because this lamp has no fixed direction. It can be hung in all directions – up, down, vertical or horizontal. The handcut marble base is accompanied by two special made lightsabers that create the artistic appearance of Limbo. The lamp will balance beautifully over the dining table, in the kitchen or in the hall.

Limbo is available in 2 designs - white Carrera/black suspension and brown Emperador marble/gold suspension.

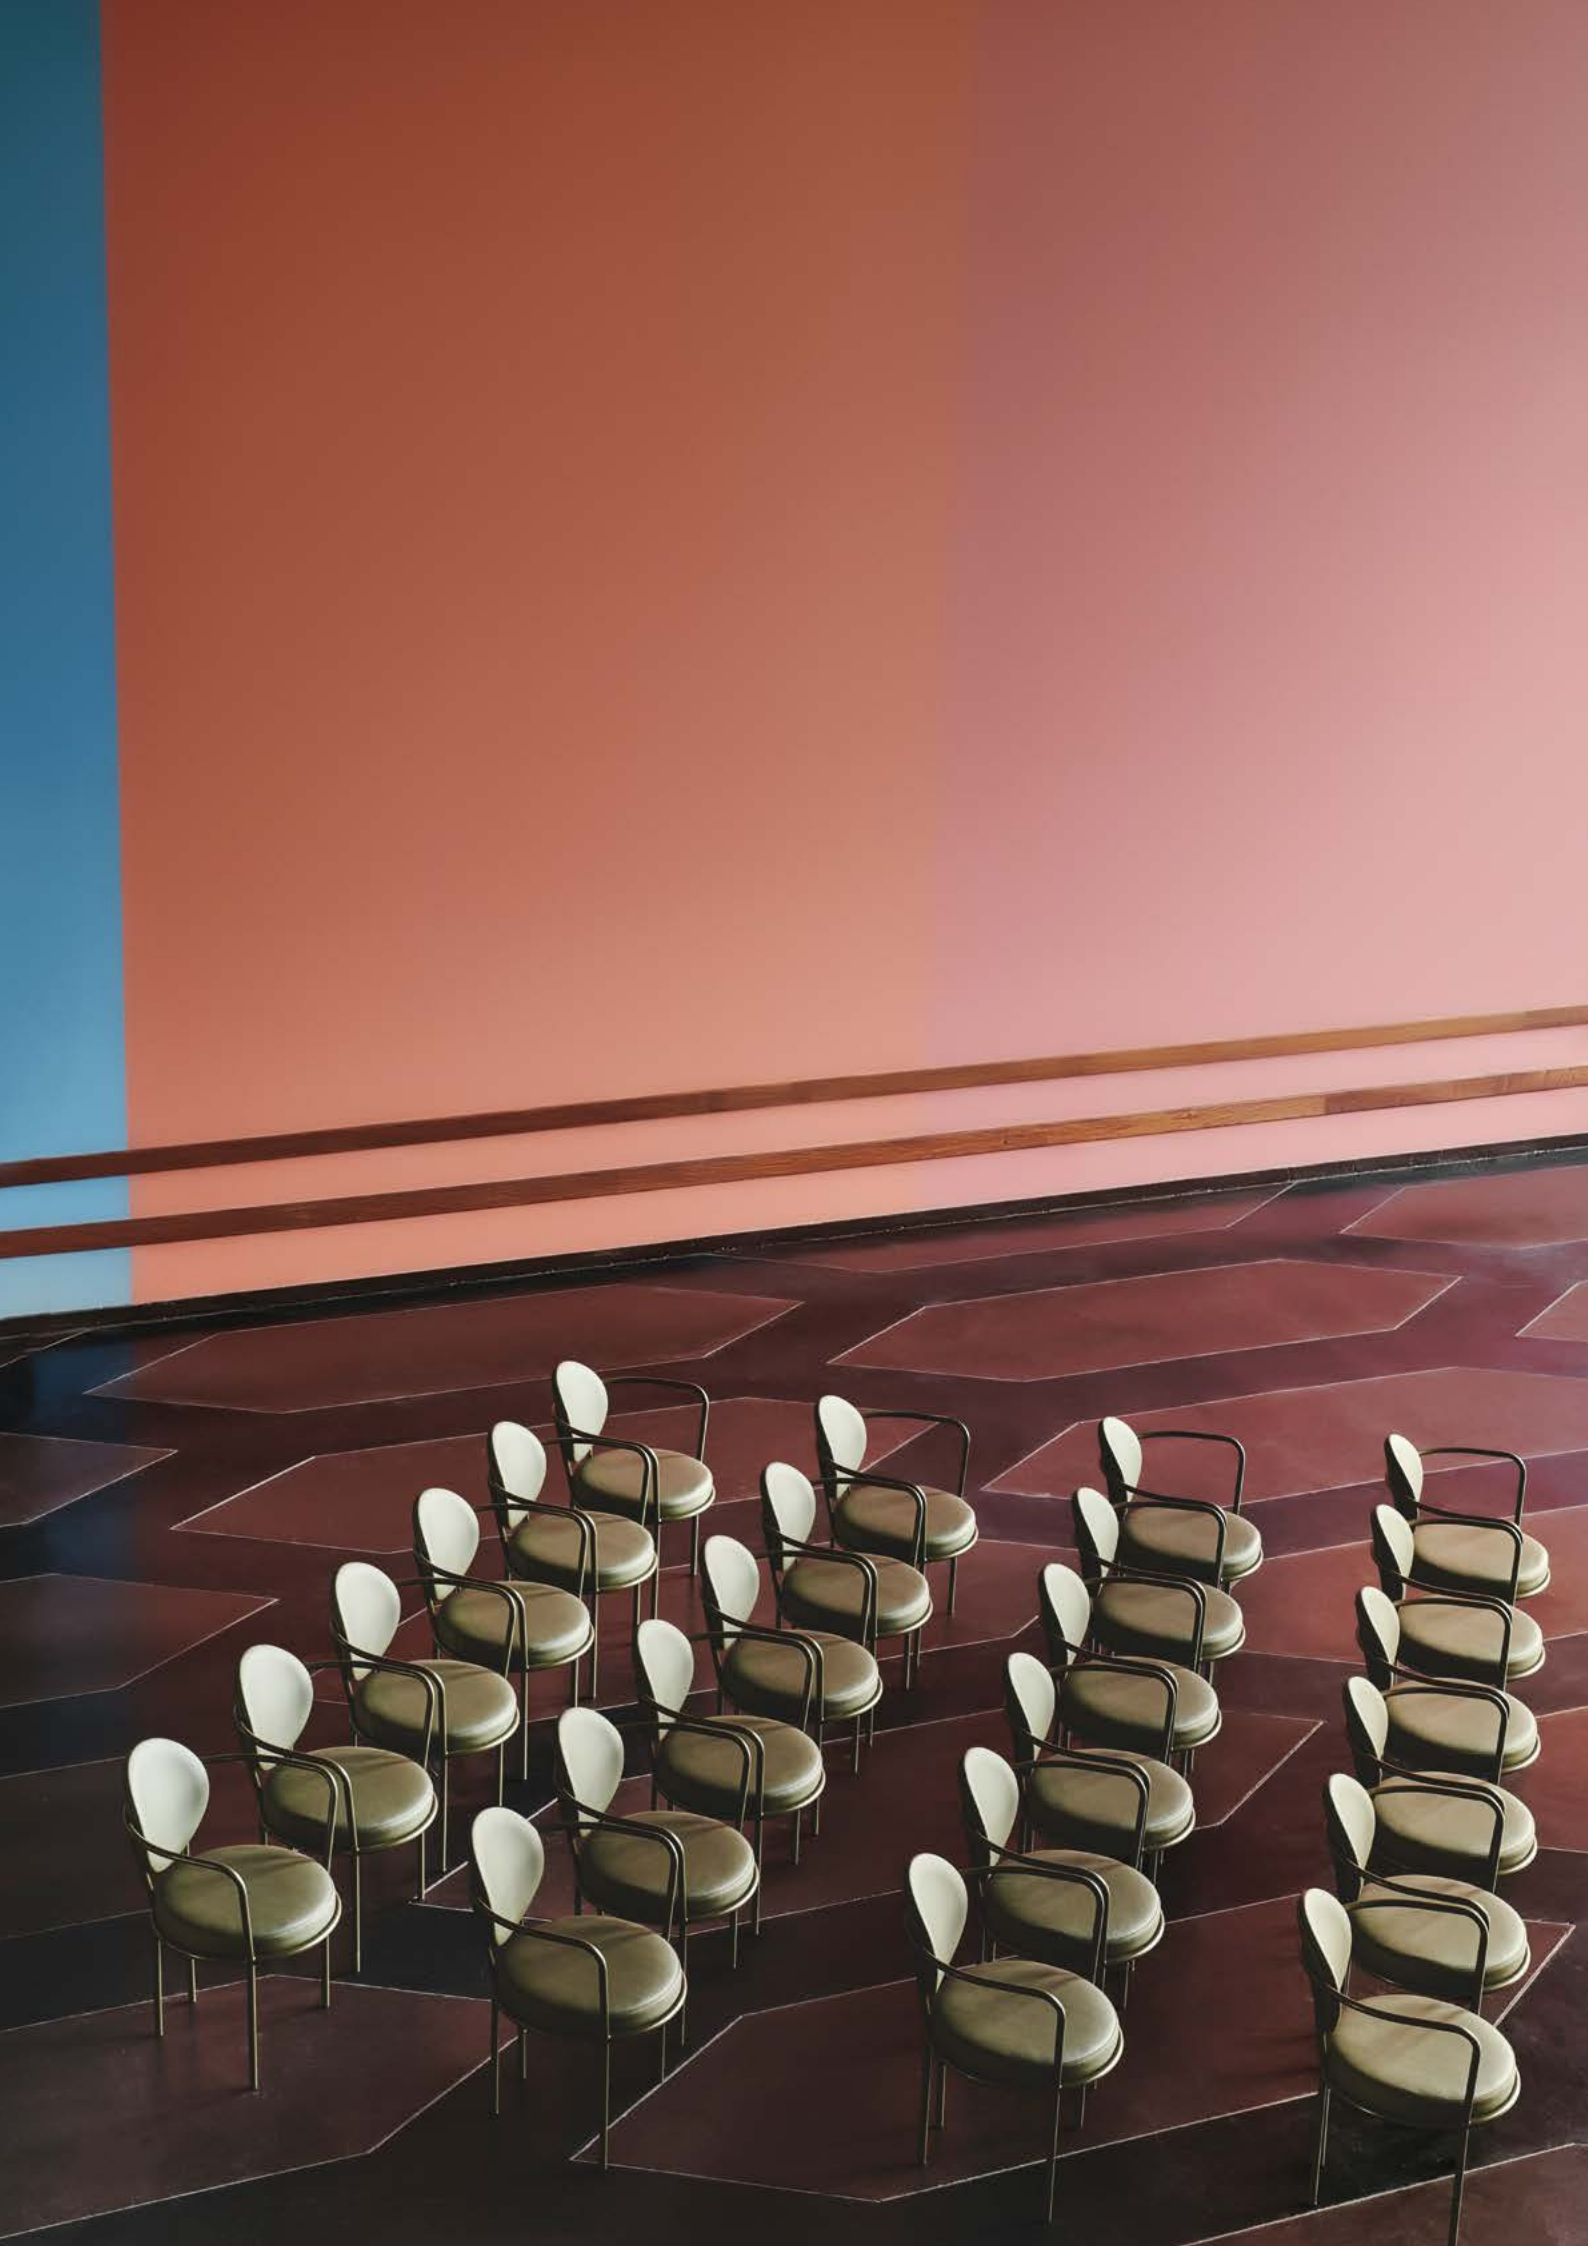

WHEN DESIGN AND ART BREAK EVEN

## CASABLANCA

Casablanca is made for long cosy dinners or the perfect chair for business meetings. The stylish look with rounded edges combined with great sitting comfort makes this chair an obvious choice for both dining and business.

The chair is made in Denmark. The frame is made of raw or coated metal, the seat and backrest is made of leather. That being said - Casablanca can be customized as you prefer and we offer several types of upholstery and frame colors.

Please enjoy!

WHO SAID THREE IS A CROWD?

## MARBLE ART

Marble Art is an elegant pendant providing a direct downlight where the width of the light cone can be adjusted from narrow to wide.

The base is a smooth polished marble cylinder with metal suspension. Each lamp has a unique pattern due to the nature of the marble stone.

Marble art is available in 5 colors. Charcoal, brown, golden, and sand with gold colored metal and white with black colored metal

## PARIS 1920

We'll always have Paris

The Paris 1920 pendant is quite unique. It is our take on the classical white glass pendants seen in the Parisian brasseries. We have a weakness for playing with the beauty of lighting. Paris is made of opal colored rippled glass with a black base. We added lines and curves and transformed the round lamp into an imaginative drop of light.

## NUTTY

Nutty is inspired by nature and the fine nuts of oak, but without letting go of our playful and unique style of lighting. The light is indirect and soft, like sunlight through the treetops, which gives a very pleasant atmosphere and light around Nutty.

Available in 18 different combinations. Two sizes in gold, black or chrome base combined with a glass dome in clear, brown or smoke.

## LIBERTY COLLECTION

The design of the Liberty lamp series is inspired by the idea of creating a modern lamp series with clean cut lines and sharp profiles. Liberty matches the Danish modern design tradition for the industrial combined with simplicity and functionalism. The base of the lamp is made up of straight lines, where the lightsource itself defines the lamp design.

**LIBERTY**  
Double Trouble

## LOTUS

This lamp is inspired by the beautiful and symbolic lotus flower. The shape of the lamp looks like the lotus flower just before it blooms. When the lamp is switched on the wavy glass creates light rays shaped like the blooming leaves of the flower. The glass is handmade and the waves in the glass are therefore unique. Just like the lotus flower itself.

The lotus lamp is available in two colours – clear with chrome and amber with gold.

## SHAHIN

The Shahin lamp is our take on the classic white pendant. This lamp is intended as the perfect addition to the dining room, hall or anywhere a beautiful lamp with a nice and calm light is needed.

## CARNIVAL TABLE LAMP #2

Matchmaking in heaven is continuing with this new table lamp. It is made in collaboration with Reflections Copenhagen, who are experts in crystal décor. We have added a new size table lamp and new colors in rose and gold. The Carnival Table Lamp #2 will definitely add decadence to your interior design. H 55 cm Dia 25 cm.

## NEW WAVE

now in amber

Our iconic New Wave Optic Wall lamp is designed to create an illuminating experience wherever it is placed. The handblown wavy glass has an amazing effect as it casts the light in beautiful waves on the wall. The clear Eyeball insert will intensify waves as shown here.

The New Wave optic Wall lamp is available in two sizes and in clear, opal, rose and smoke.

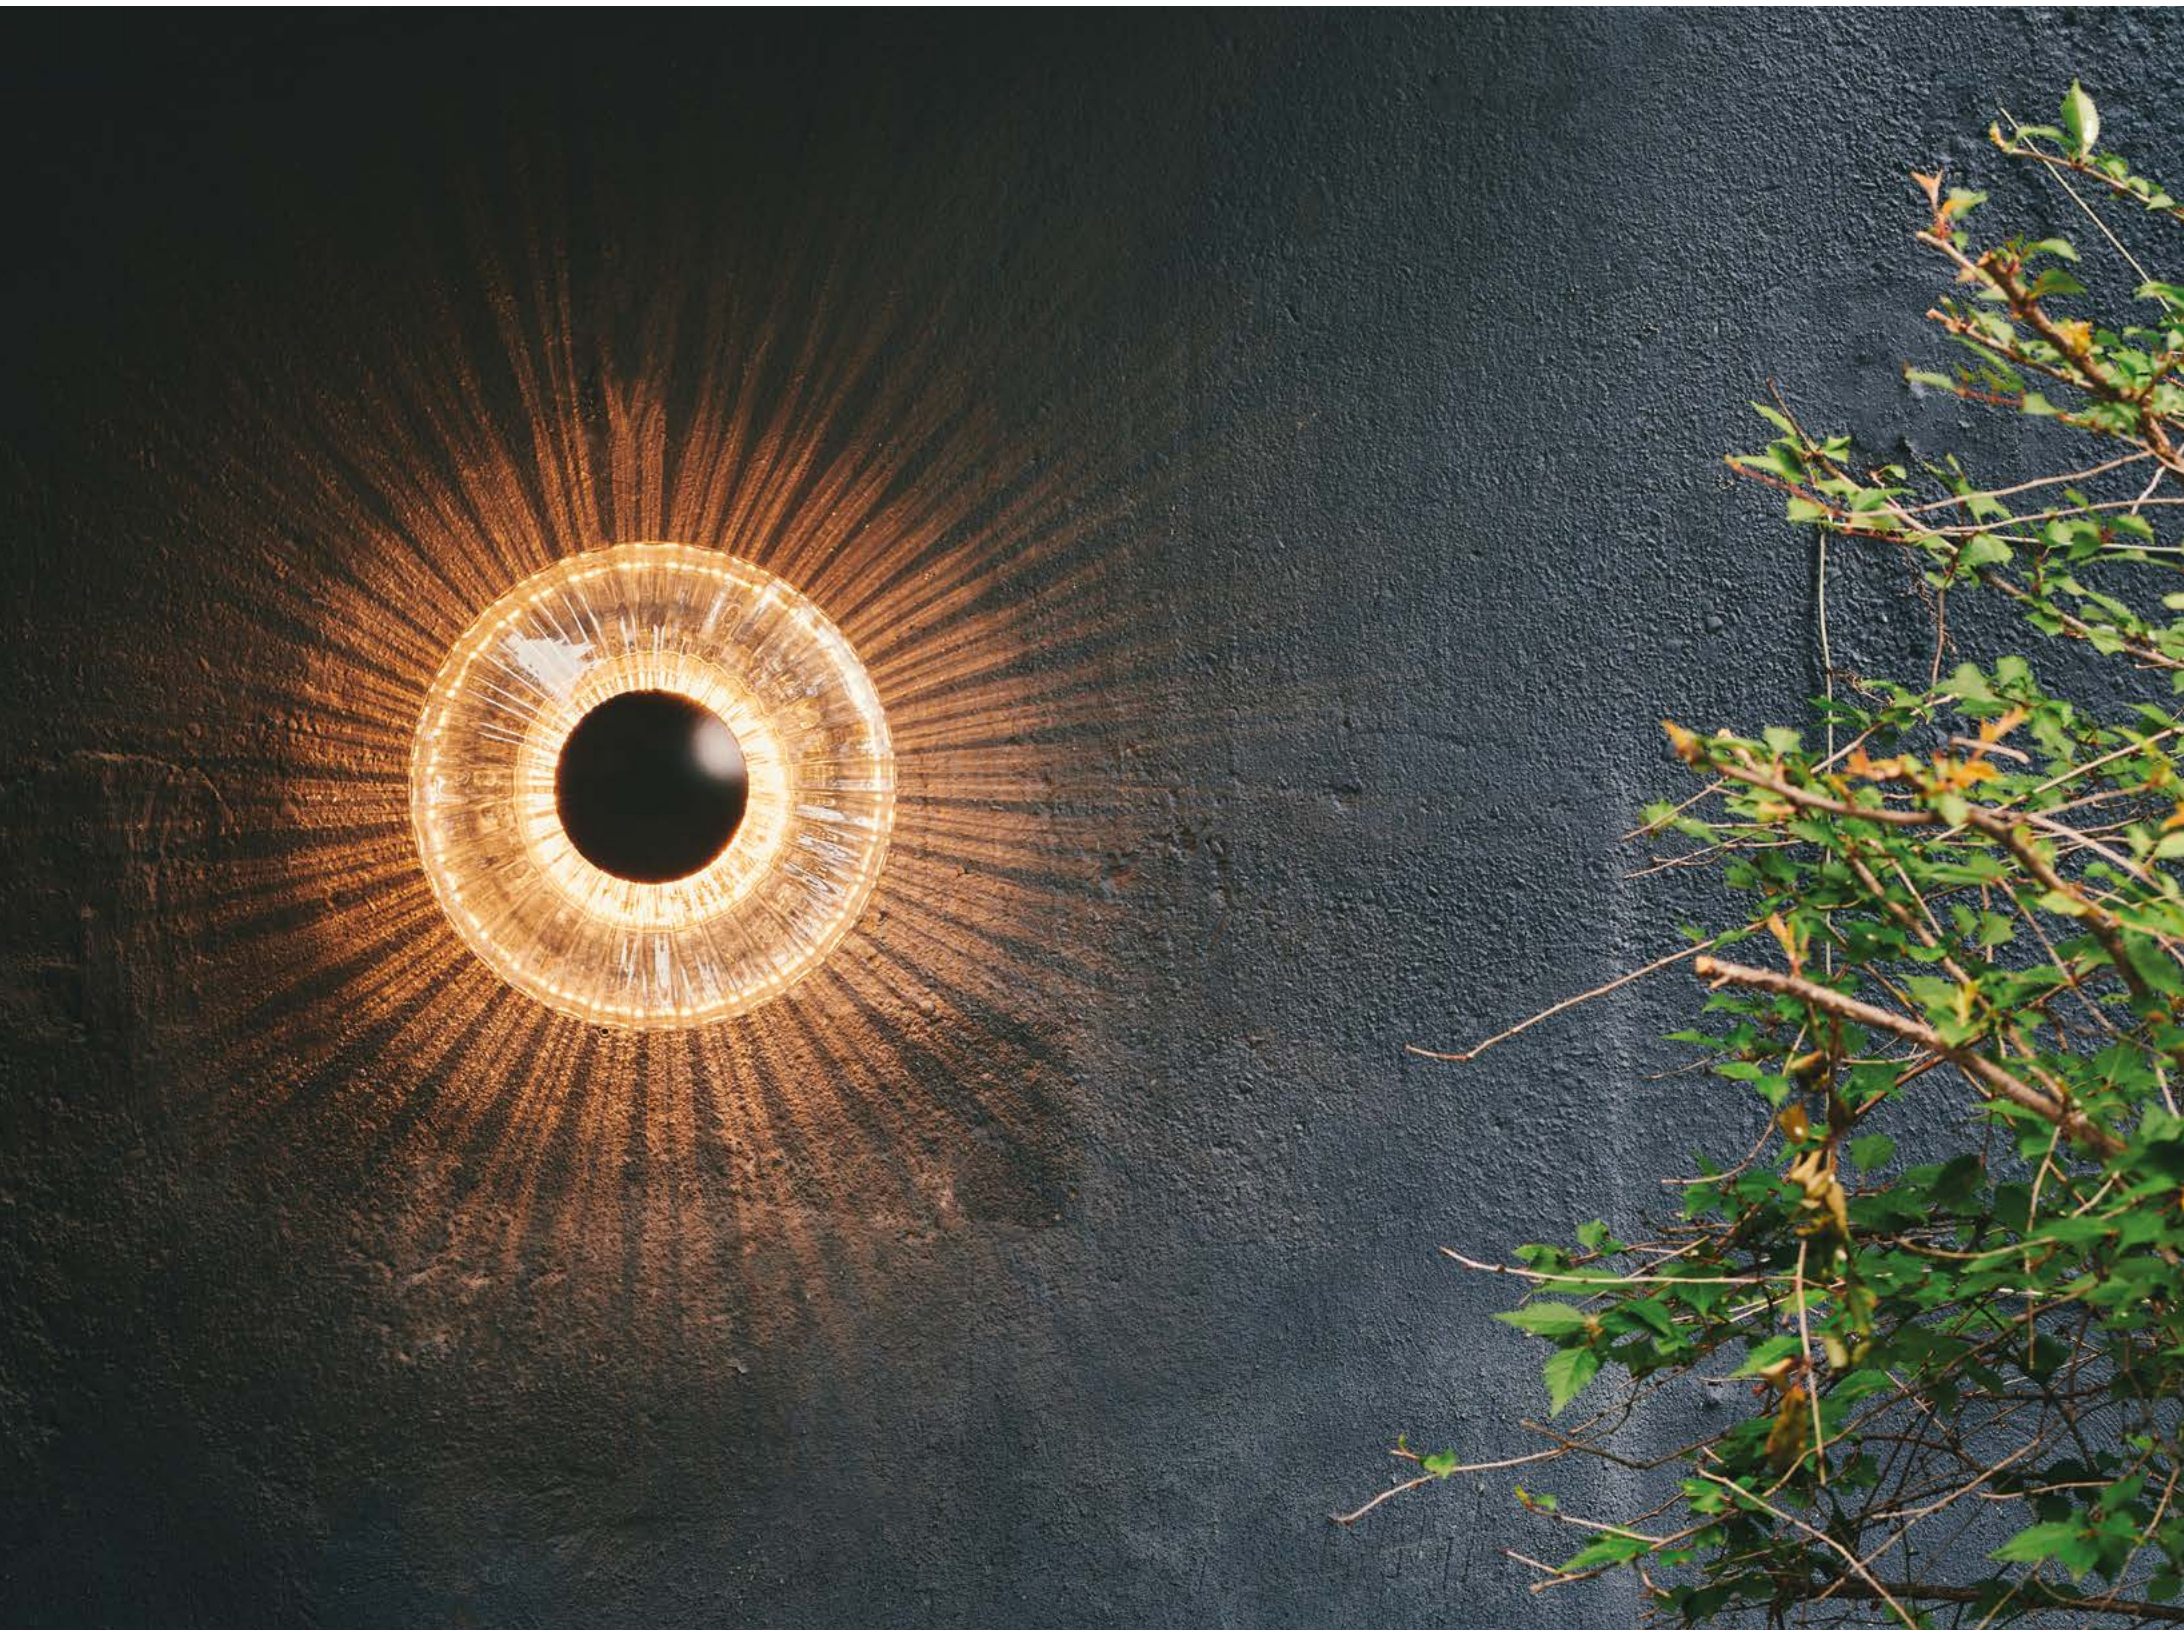

## GET A GRIP

The Get a Grip series is designed to add elegance to drawers and cupboards. We think it is time to add some attitude to the home, as it is all about personalizing your favorite areas.

You can mix and match the grips as you please to create the perfect look. Get a Grips are made in solid marble and brass.

## LET'S GO OUTSIDE

Why keep all the lovely lamps indoor? The iconic new wave optic wall lamp is now available in an outdoor version too. The handblown wavy glass will work its wonders by creating an illuminating experience on any outdoor wall.

Our bold and beautiful outdoor lamps will add character outside. Where the Nightrider lamp offers a rough and yet classical look the New Wave Optic Wall Lamp will add even more power to outdoor light setup.

WE ALSO DO  
PROJECTS

Our designs are very suitable for projects too - whether it is lighting or furniture. We always work with certified materials and we can customize almost all of our furniture to fit interior designs.
